

Capstone

WORDMARK ONLY - NO SEPARATE LOGO ICON

Minimalist Style Guide

A clear, shared reference for the Capstone login and team-page experience.

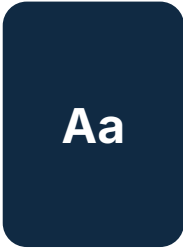

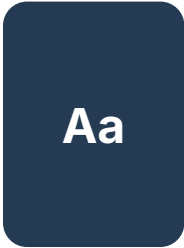

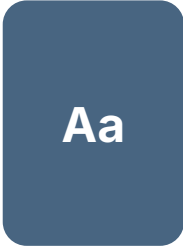

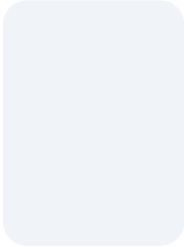

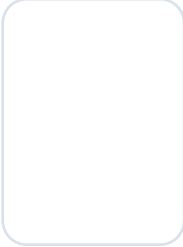

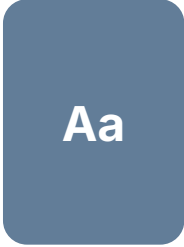

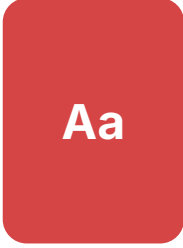

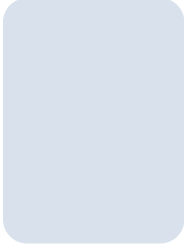

CORE PRINCIPLE

80% neutral / 15% dark blue / 5% accent

Use whitespace and hierarchy before adding decoration.

Colour system

Every colour has a defined job. Use these roles consistently so colour communicates hierarchy and interface state.

	Primary / Navy #102A43 USED FOR Primary buttons, H1-H3 headings, active states and primary text.		Secondary / Blue #243B53 USED FOR Button hover states, navigation hover text and supporting dark surfaces.
	Accent / Slate #486581 USED FOR Icons, team roles, subtle highlights and future input focus states.		Background #F0F4F8 USED FOR Main page canvas behind cards, forms and empty states.
	Surface #FFFFFF USED FOR Navigation bar, team cards, login form and input backgrounds.		Secondary text #627D98 USED FOR Subtitles, descriptions, helper text, captions and metadata.
	Error #D64545 USED FOR Failed-login message and future validation or error borders.		Border / disabled #D9E2EC / #BCCDCD USED FOR Dividers, card borders, input borders and future disabled controls.

RECOMMENDED BALANCE**80% neutral****15% dark blue****5% accent**

Typography

Space Mono creates personality in headings and the Capstone wordmark. Inter keeps all interface and body content readable.

Capstone

WORDMARK ONLY

No symbol or separate logo mark

TYPE SCALE

Inter Regular

12px / 16px

#627D98

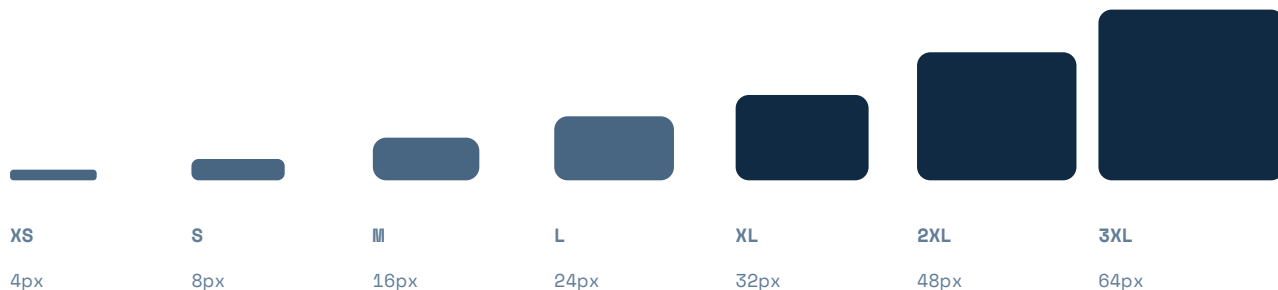

ASSIGNMENT RULE

Headings = Space Mono. Everything else = Inter.

Spacing & page layout

Use the 8px spacing family for consistent rhythm. Desktop content is aligned to a required 90px margin on both sides.

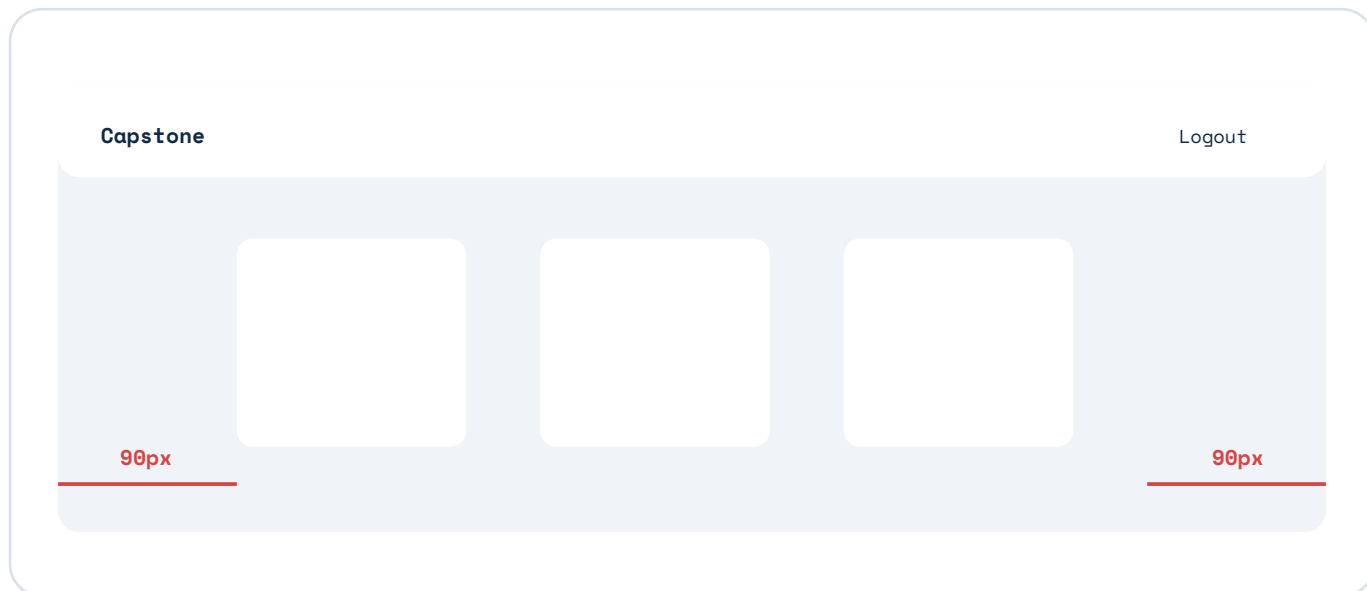

8PX-BASED SPACING

Recommended rhythm

8 > 16 > 24 > 32 > 48

REQUIRED DESKTOP MARGINS

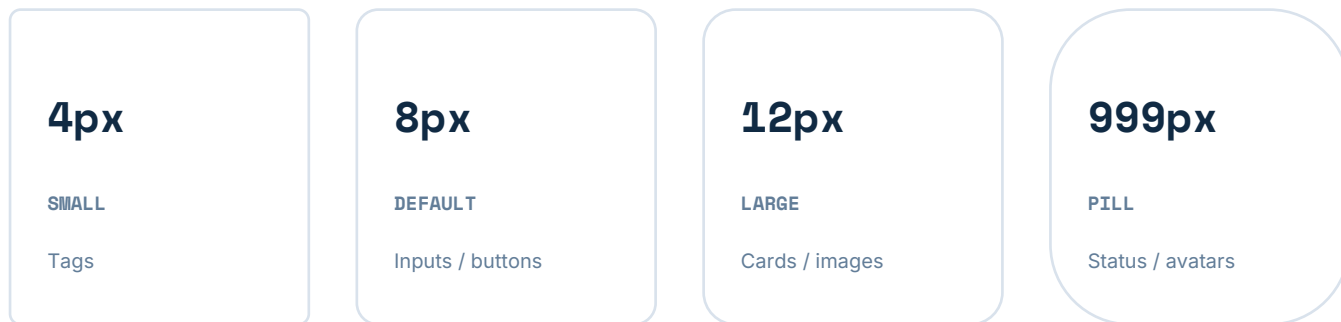

DO NOT MISS THIS

90px left margin + 90px right margin

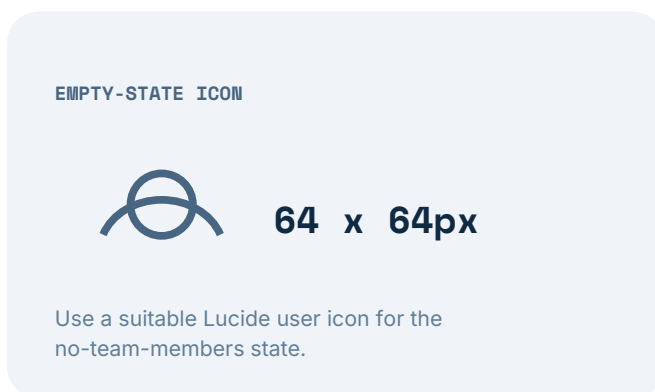

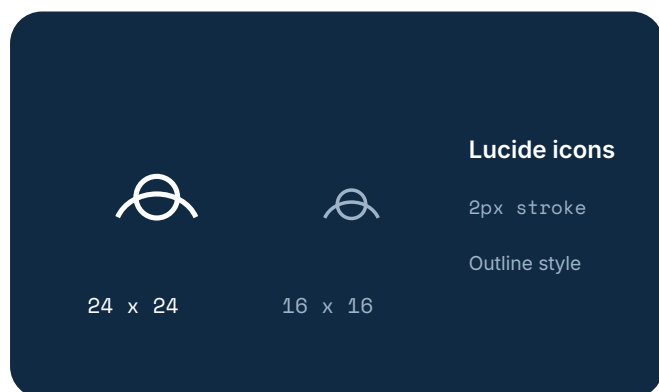

Shape & icons

Consistent corners and one outline icon family create cohesion without visual clutter.

BORDER RADIUS

ICON SYSTEM

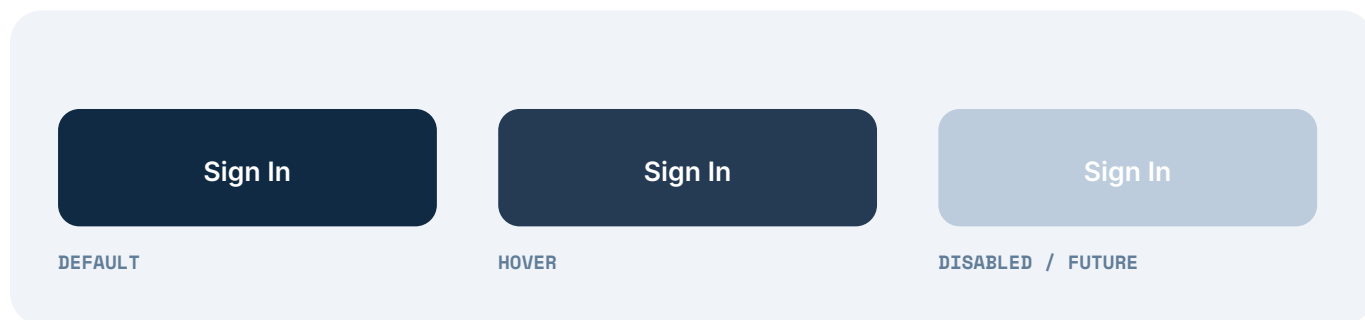

ICON RULES

- 1 Use one icon library only: Lucide.
- 2 The exact user icon may vary; choose a Lucide user/profile glyph.
- 3 Do not mix filled and outlined icon styles.
- 4 Keep the default stroke at 2px.

Buttons & navigation

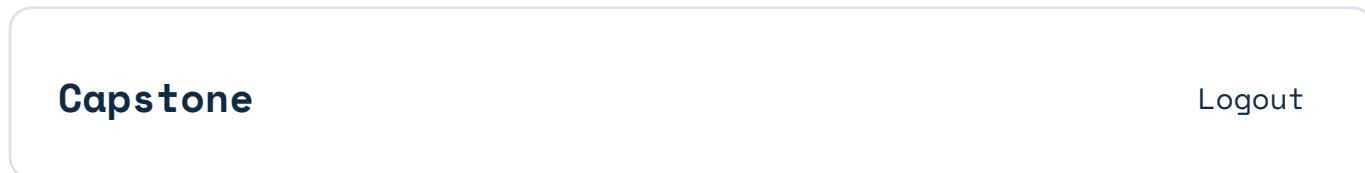

The primary button handles the main action. Navbar actions are text buttons and use an underline on hover.

PRIMARY BUTTON

Height 44px Padding 0 24px Radius 8px Type Inter Semibold 14px

NAVIGATION BAR

WORDMARK - NO ICON

64px navbar

90px content alignment

NAVBAR ACTION STATES

Default #102A43 / Space Mono Regular 18px

Hover Underline + #243B53

SCALABLE SPACING

Current Capstone wordmark on left; Logout on right.

Future 32px between navigation items; keep the group right-aligned.

Inputs & validation

The current mockups show normal inputs only. Focus and error borders are documented as future implementation states.

CURRENT INPUTS

DEFAULT

DEFAULT

CURRENT

Only the normal/default input is required in the present mockups.

FUTURE IMPLEMENTATION

FOCUS

ERROR

Incorrect username or password.

SPECIFICATION

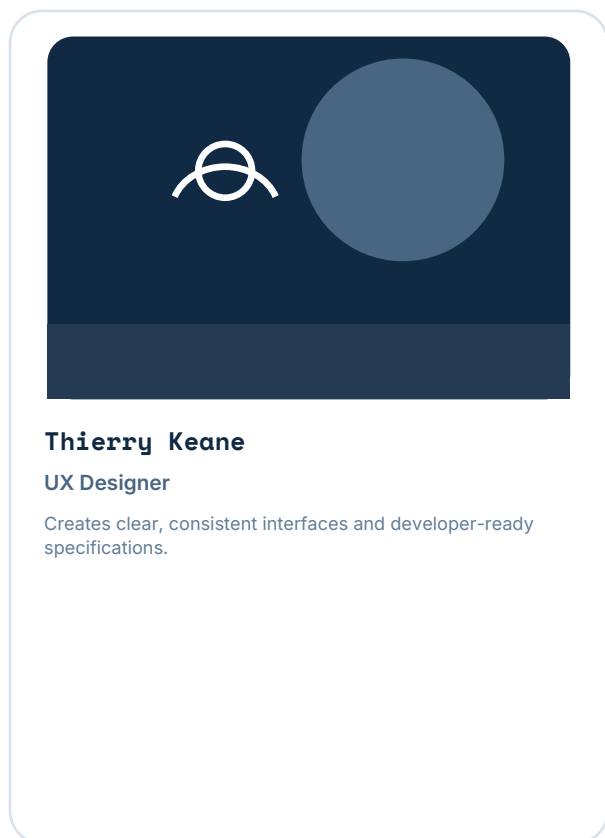

Height	44px	Padding	0 12px
Background	#FFFFFF	Text	Inter 16px
Border	1px #BCCDCD	Future focus	2px #486581
Radius	8px	Future error	1px #D64545

Failed login message:

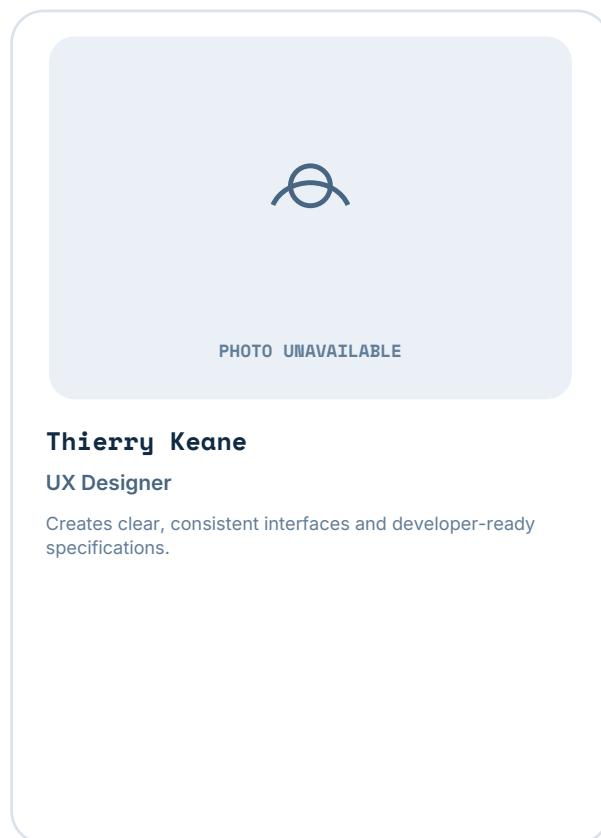

Incorrect username or password.

Team member card

Use the same fixed dimensions and content hierarchy for every member so the grid remains aligned.

DEFAULT

MISSING IMAGE

EXACT PRODUCTION DIMENSIONS

Card width	280px	Image	245 x 170px
Card height	390px	Image radius	12px
Card radius	12px	Image top spacing	12px
Card border	1px #D9E2EC	Card padding	16px
Grid gap	24px	Description	Inter / up to 500 chars

OVERFLOW RULE

Keep text inside the 390px card. Clamp the visible description instead of allowing it to overlap or escape the card.

Empty & fallback states

Fallbacks preserve layout and explain missing content without making the interface look broken.

NO TEAM MEMBERS

64 x 64px

No team members found

Team member will appear here once added

CARD FALLBACK COPY

Name unavailable

Use when the name is missing.

FALLBACK

Role unavailable

Use when the role is missing.

FALLBACK

No description provided

Use when the blurb is missing.

FALLBACK

CONSISTENCY RULE

Do not change card dimensions when content is missing.

The missing-photo area stays 245 x 170px. Use any suitable Lucide user icon; it does not need to match this example exactly.

Developer checklist

Use this list with the Figma prototype and acceptance-criteria document before implementation begins.

1

Use the Capstone wordmark only; do not add a separate logo icon.

2

Keep the navbar 64px high and align content to the 90px page margins.

3

Use Space Mono for headings; use Inter for every other interface text role.

4

Primary button: #102A43 default and #243B53 hover.

5

Navbar text action: #102A43 default; underline and #243B53 on hover.

6

Current inputs use the normal state; focus and error borders are future work.

7

Team cards are 280 x 390px; images are 245 x 170px with a 12px radius.

8

No-team icon: 64 x 64px. Use a Lucide user icon; the exact glyph may vary.

9

Use the documented colour roles rather than choosing colours by appearance alone.

FINAL RULE

Build the mockups from the system - not beside it.
